**BALA CONSULTING ENGINEERS SELECTED AS ONE OF THE
REGION'S "BEST PLACES TO WORK"**

Bala was selected as one of the Philadelphia area's "Best Places to Work!" The competition was organized by the Philadelphia Business Journal, and Bala was one of fifteen mid-size firms selected. The program evaluated our company policies, practices and philosophies, and conducted an independent survey of our employees to measure their opinion of Bala.

This is our second time receiving an award for Best Places to Work. Our first award was in 2008 from the Central Pennsylvania Business Journal, and we look forward to continuing this tradition.
