## CORPORATE EXPERIENCE

---

The office environment, whether a corporate headquarters or tenant improvement space, is one of our primary markets. We are engineering the future to make buildings smarter and more energy efficient. Our services span all project phases from site selection and space planning through preliminary and detailed design, bid documentation, contract administration and post-construction support. We have completed more corporate headquarters and tenant fit-out projects than almost any other engineering firm in the Philadelphia area. With 20+ LEED Accredited Professional on staff, we are committed to sustainable design.

---

## PROJECT TYPES

---

Corporate Headquarters	Office Renovation/Fit-Out
